

Community Mental Health Providers

Please find a list of various mental health providers in our community. WCSC does not endorse one organization over another. Individuals and families who choose to access services do so on a voluntary basis, and release West Central School Corporation from any claims, demands, legal action, or liability. The list is simply a resource for families to explore on their own if they decide to do so while utilizing their own resources. If you are interested in more information, please reach out to an agency listed below or the School Social Emotional Specialist.

Agency	Counseling/Therapy	Psychiatric Services	Addiction Services	Emergency Crisis (e.g., Suicide Ideation)	Community and/or School Based Services
